

## Discussion guide

Everything has an edge. The edge of society, where conformity ends and creativity begins. The bleeding edge of technology. The edge of reason. **City Bible Forum** invites you to take a look over the edge. To understand where our current thinking is taking us. To see what's happening now, what's coming next, and what you can do about it.

**You've listened to the panel and podcast with others, now try and take it further to The Edge.**
